

Requirements

What you need to supply

Sewing machine that and manual with free motion embroidery foot

Make sure the machine is in perfect working order I am not a technician and I would prefer not to spend precious class time trying to make machines work.

I use rayon threads to embroider with but bring any threads you like to use, you will use these threads in the bobbin and needle.

Extra needles I prefer topstitch but whatever you normally use is all good .

I will be supplying all the other materials in the kits

most important a smile and sense of adventure .
